

IUCLID5 Refresher Training For REACH Registrants

Run regularly throughout the year – check www.reachready.co.uk for the latest dates.

Why Attend?

IUCLID5 (International Uniform Chemical Information Database) is the official tool for REACH data collection and with around 9000 user input fields it's just as complicated as the REACH regulation itself.

If you have already had IUCLID5 Training but have yet to use many of the functions required for substance registration, then this course is for you. We will use practical exercises to find out what you can (or can't) remember, so that the day covers the key areas you need. We will also spend some time reviewing common issues and questions.

As with all our IUCLID5 courses there will be lots of hands-on experience under the expert tutelage of REACHReady and TRASYS staff.

Who Should Attend?

Participants who have already had training on IUCLID5 who may not have used all the functionality since their training. This course provides a reminder of the essentials for all end-users of IUCLID5 and will prove invaluable to you when you make your company's input to your substances' REACH dossiers.

This course will assume that you have had some experience / training with IUCLID 5 and would not be suitable for people new to the software.

What's covered in the programme

Introduction

Review of dossier preparation and submission

A quick review to identify where delegates are comfortable with the application and where greater attention is needed

Review of frequently encountered problems

Informed by the REACHReady and Trasys Helpdesks, as well as delegates' own experiences

Practical Exercises:

Use of legal entity

The various alternatives eg. OR, Importer, Manufacturer

Importing /exporting IUCLID5 data Preparation of the IUCLID5 dossier Joint submission case study

Data sharing
Preparation of substance, templates etc.

What to expect on the day

REACHReady's unrivalled knowledge of the regulation is combined with TRASYS' expertise with the REACH software to deliver our IUCLID5 User Training Courses.

Run with a minimum of 6 delegates and limited to a **maximum of 18**, each participant will be provided with their own dedicated PC to use throughout the training, and there will be a **minimum tutor to student ratio of 1:8** ensuring a really practical experience and a good level of interaction. We have an informal style so there will be plenty of opportunity to ask questions! Lunch, course materials and refreshments are provided.

We offer a full range of REACH-IT/IUCLID5 training courses from our basic foundation workshops to advanced training for REACH Managers – see www.reachready.co.uk
